Contents of Volume 60, 2001

(All rights reserved)

Editorial

A new leaf.
K. M. Younger 1–2

Protein and amino acid requirements and recommendations
(Workshop Proceedings: 10–11 April 2000)

Chair: P. Emery, *Kings College London, UK*

Methodological considerations.
D. J. Millward 3–5

Human protein requirements: policy issues.
A. A. Jackson 7–11

The biology of amino acid requirements: what do they mean and can we measure them?
P. Reeds 13–14

Plenary Lectures *(27–30 June 2000)*

Chairs: P. Shetty, *London School of Hygiene and Tropical Medicine, UK;* **M. J. Gibney,** *Trinity College, Dublin, Republic of Ireland*

Challenges for meeting the global food and nutrient needs in the new millennium.
G. S. Khush 15–26

Metabolism 2000: the emperor needs new clothes.
V. R. Young & A. M. Ajami 27–44

The relative contribution of diet and genotype to development
(Symposium Proceedings: 27–30 June 2000)

Chair: H. McNulty, *University of Ulster, Coleraine, UK*

The relative contribution of diet and genotype to bone development.
A. Prentice 45–52

Genes, folate and homocysteine in embryonic development.
T. H. Rosenquist & R. H. Finnell 53–61

Nutrition–hormone receptor–gene interactions: implications for development and disease.
M. J. Dauncey, P. White, K. A. Burton & M. Katsumata 63–72

Iron deficiency and iron overload: effects of diet and genes.
W. Burke, G. Imperatore & M. Reyes 73–80

Energy flux and cancer *(Symposium Proceedings: 27–30 June 2000)*

Chair: D. J. Millward, *University of Surrey, UK*

Energy balance and cancer: the role of sex hormones.
T. J. Key, N. E. Allen, P. K. Verkasalo & E. Banks 81–89

Energy balance and cancer: the role of insulin and insulin-like growth factor-I.
R. Kaaks & A. Lukanova 91–106
Physical activity and cancer risk.
A. E. Hardman 107–113

Future Perspectives in Nutrition and Behaviour Research
(Symposium Proceedings: 27–30 June 2000)

Chairs: I. Kyriazakis, *Scottish Agricultural College, Midlothian, UK;* **J. Day,**
ADAS Terrington, Norfolk, UK

Consequences of genetic change in farm animals on food intake and feeding behaviour.
G. C. Emmans & I. Kyriazakis 115–125
The regulation of body weight: lessons from the seasonal animal.
P. J. Morgan & J. G. Mercer 127–134
A healthy body, a healthy mind: long-term impact of diet on mood and cognitive function.
P. J. Rogers 135–143
Theoretical developments in the study and prediction of food intake.
J. Yearsley, B. J. Tolkamp & A. W. Illius 145–156

A Personal Appreciation

Dr Elsie M. Widdowson
D. A. T. Southgate 157–160

Postgraduate Symposium *(Symposium Proceedings: 27–30 June 2000)*

Chair: C. M. Williams, *University of Reading, Reading, UK*

Dietary monounsaturated fatty acids and haemostasis.
C. N. M. Kelly, R. D. Smith & C. M. Williams 161–170
Nutritional factors and visual function in premature infants.
V. C. Jewell, C. A. Northrop-Clewes, R. Tubman & D. I. Thurnham 171–178
Tube feeding patients with advanced dementia: an ethical dilemma.
E. P. McNamara & N. P. Kennedy 179–185
The role of leptin in the transition from fetus to neonate.
A. Mostyn, D. H. Keisler, R. Webb, T. Stephenson & M. E. Symonds 187–194

Nutritional challenges in the new millennium
(Symposium Proceedings: 27–30 June 2000)

Chairs: P. S. Shetty and E. A. Dowler, *London School of Hygiene and Tropical Medicine, London, UK*

Impact of climatic and other environmental changes on food production and population health in the coming decades.
A. J. McMichael 195–201
Challenges to meet: food and nutrition security in the new millennium.
M. Lipton 203–214
The impact of globalisation, free trade and technology on food and nutrition in the new millennium.
P. McMichael 215–220

Quality inputs for quality foods *(Symposium Proceedings: 27–30 June 2000)*

Chairs: R. J. Dewhurst and N. D. Scollan, *Institute of Grassland and Environmental Research, Aberystwyth, UK*

Producing tender and flavoursome beef with enhanced nutritional characteristics.
A. P. Moloney, M. T. Mooney, J. P. Kerry & D. J. Troy 221–229
Producing specific milks for speciality cheeses.
G. Bertoni, L. Calamari & M. G. Maianti 231–246

Dietary effects on the microbiological safety of food.
E. C. McWilliam Leitch, S. H. Duncan, K. N. Stanley & C. S. Stewart 247–255

Education Group Lecture *(Symposium Proceedings: 27–30 June 2000)*

Chair: C. A. Edwards, *Yorkhill Hospital, Glasgow, UK*

Human nutrition in medical practice: the training of doctors.
A. A. Jackson 257–263

Nutritional aspects of bone metabolism from molecules to organisms *(Symposium Proceedings: 27–30 June 2000)*

Chair: K. D. Cashman, *University College, Cork, Republic of Ireland*

Exercise, bone and nutrition.
S. A. New 265–274
Integrin antagonists as inhibitors of bone resorption: implications for treatment.
M. A. Horton 275–281
Calcium turnover and nutrition through the life cycle.
S. A. Abrams 283–289

Quality inputs for quality foods *(Symposium Proceedings: 27–30 June 2000)*

Chairs: R. J. Dewhurst and N. D. Scollan, *Institute of Grassland and Environmental Research, Aberystwyth, UK*

Development of antibiotic resistance and options to replace antimicrobials in animal diets.
K. E. Bach Knudsen 291–299

Nutrition Society Medal Lecture *(Symposium Proceedings: 27–30 June 2000)*

Chair: C. M. Williams, *University of Reading, Reading, UK*

A heliocentric view of leptin.
G. Frühbeck 301–318

New perspectives on adipose tissue function *(Symposium Proceedings: 23 November 2000)*

Chairs: M. Cawthorne, *University of Buckingham, Buckingham, UK;* **P. Trayhurn,** *University of Liverpool, Liverpool, UK*

The adipose organ: morphological perspectives of adipose tissues.
S. Cinti 319–328
Physiological role of adipose tissue: white adipose tissue as an endocrine and secretory organ.
P. Trayhurn & J. H. Beattie 329–339
Plasminogen activator inhibitor-1 and haemostasis in obesity.
N. J. Mutch, H. M. Wilson & N. A. Booth 341–347
Pro-inflammatory cytokines and adipose tissue.
S. W. Coppack 349–356
The sympathetic nervous system in white adipose tissue regulation.
D. V. Rayner 357–364
Long-term changes in adipose tissue in human disease.
C. M. Pond 365–374
Adipose tissue and the insulin resistance syndrome.
K. N. Frayn 375–380

Sir David Cuthbertson Medal Lecture *(Symposium Proceedings: 28–30 November 2000)*

Chair: A. Pierro, *Institute of Child Health, London, UK*

Insulin resistance and glucose-induced thermogenesis in critical illness.
G. L. Carlson 381–388

Evidence-based nutrition *(Symposium Proceedings: 28–30 November 2000)*

Chair: G. L. Carlson, *Hope Hospital, Salford, UK*

Nutritional modulation of immune function.
R. F. Grimble 389–397

Enteral and parenteral nutrition: evidence-based approach.
K. N. Jeejeebhoy 399–402

The evidence for glutamine use in the critically-ill.
R. D. Griffiths 403–410

Current perspectives of community nutritional support *(Symposium Proceedings: 28–30 November 2000)*

Chair: C.-A. McAtear, *Victoria Infirmary, Glasgow, UK*

Strategic issues: the view from a community dietetic manager.
C. Firmin 411–413

Keynote Lecture 2 *(Symposium Proceedings: 28–30 November 2000)*

Practical nutritional support: working together to make it happen.
P. Howard 415–418

Dietary influences on mucosal immunity *(Symposium Proceedings: 7 December 2000)*

Chairs: D. Hughes, *Institute of Food Research, Norwich, UK;* **L. Harbige,** *University of Greenwich, London, UK;* **P. W. Bland and M. Bailey** *University of Bristol, Bristol, UK*

How dietary antigens access the mucosal immune system.
M. Heyman 419–426

Regulation of mucosal immune responses in effector sites.
M. Bailey, F. J. Plunkett, H.-J. Rothkötter, M. A. Vega-Lopez, K. Haverson & C. R. Stokes 427–435

Immunity induced after a feed of antigen during early life: oral tolerance *v.* sensitisation.
S. Strobel 437–442

Nutritional factors and immune functions of gut epithelium.
I. R. Sanderson 443–447

Dietary fatty acid modulation of mucosally-induced tolerogenic immune responses.
L. S. Harbige & B. A. C. Fisher 449–456

Modification of enteral diets in inflammatory bowel disease.
M. C. Aldhous, D. Meister & S. Ghosh 457–461

Nutritional effects of new processing technologies *(Symposium Proceedings: 21 February 2001)*

Chairs: N. Heppell, *Oxford Brookes University, Oxford, UK;* **C. J. Seal,** *University of Newcastle, Newcastle, UK*

New processing technologies: an overview.
G. W. Gould 463–474

Microencapsulation: its application in nutrition.
P. M. M. Schrooyen, R. van der Meer & C. G. De Kruif 475–479

New food components and gastrointestinal health.
I. T. Johnson 481–488
Technical constraints in the development of reduced-fat bakery products.
T. Sharp 489–496

Nutritional adaptation to pregnancy and lactation *(Symposium Proceedings: 28–29 March 2001)*

Chairs: M. M. Hetherington, *University of Dundee, Dundee, UK;* **W. L. Wrieden,** *Ninewells Medical School, Dundee, UK;* **N. Hoggard,** *Rowett Research Institute, Aberdeen, UK*

Pregnancy as a time for dietary change?
A. S. Anderson 497–504
Fetal programming of cardiovascular functions through exposure to maternal undernutrition.
S. C. Langley-Evans 505–513
Nutrient partitioning between reproductive and immune function in animals.
J. G. M. Houdijk, N. S. Jessop & I. Kyriazakis 515–525
Lactation and gestation in dairy cows: flexibility avoids nutritional extremes.
C. H. Knight 527–537

Abstracts of Communications

Contemporary beliefs and attitudes to weaning.
A. S. Anderson, C. Guthrie, E. M. Alder, F. Williams, J. S. Forsyth & P. Howie 2A
Children's understanding of fruits and vegetables – implications for nutrition education.
C. Higgins, M. M. Hetherington, A. S. Anderson, L. E. G. Porteous, E. Foster & A. J. Adamson 2A
Nutritional knowledge, food preparation knowledge and cooking confidence of 187 schoolchildren.
S. A. Revill, A. J. Adamson, A. S. Anderson, R. Stacy, J. Hooper, H. Taylor & P. J. Moynihan 3A
Body image concerns and slimming practices of inner-city Dublin women.
H. R. Casey, M. A. T. Flynn, K. M. Younger, M. J. Gibney, M. McDonnell & W. Shannon 3A
Survey on Lifestyle, Attitudes and Nutrition, SLÁN: sociodemographic profile of food pyramid compliance.
J. Harrington, S. Friel, G. Nolan & C. Kelleher 4A
A database of vegetarian convenience foods.
R. L. Reid & A. F. Hackett 4A
Who are the vegetarians?
C. Jaggers, J. Cade, D. Greenwood & A. Greenhalgh 5A
Dietary interventions in general dental practice: an unexplored opportunity for promoting dietary change in low income communities?
K. L. Barton, A. S. Anderson, C. M. Pine, M. G. Paterson & G. Burnside 5A
Slimming clubs: their impact on weight management and health promotion.
J. Lapsley & F. Rabiee 6A
Readership, knowledge, usage of and confidence in genetically modified food labelling amongst Irish consumers.
F. Moloney, J. Ennis & K. Sheil 6A
Tracer dosage for total energy expenditure measurement using doubly labelled water.
T. Preston, A. Moses, C. Slater, M. D. Barber & K. C. H. Fearon 7A
Total energy expenditure and measurement errors using doubly labelled water in cancer cachexia.
T. Preston, A. Moses, C. Slater, M. D. Barber & K. C. H. Fearon 7A
Calibration of a heart rate monitor to estimate CO_2 production rate for ^{13}C-breath tests.
C. Slater, T. Preston & L. T. Weaver 8A
A comparison of three methods of measuring gastric emptying.
W. L. Hall, A. Giouvanoudi, C. J. Seal, J. C. Mathers, N. Spyrou, W. B. Amaee & L. M. Morgan 8A

A test meal suitable for measuring gastric emptying of solids by means of a [^{13}C-1]-sodium acetate breath test.
W. Meier-Augenstein, H. F. Kemp & T. Preston 9A
The effect of aspartame on stomach to caecum transit time in rats.
B. E. Murray & D. Rumsey 9A
Peripheral administration of cholecystokinin octapeptide and islet amyloid polypeptide inhibits food intake in mice.
C. M. N. Kelly, N. Duffy, P. R. Flatt & F. P. M. O'Harte 10A
The effect of the CCKA receptor antagonist loxiglumide on appetite ratings, energy intake & gastric emptying in humans.
S. J. Long, A. Giouvanoudi, A. Sutton, W. B. Amaee, N. Spyrou, P. Rogers, M. D'Amato, J. Calam & L. M. Morgan 10A
Gender differences in postprandial substrate oxidation.
A. E. Jones, R. D. Smith, C. N. M. Kelly, K. D. R. R. Silva, M. C. Nydahl, C. M. Williams & S. A. Wootton 11A
Post-exercise replenishment of intramyocellular lipids.
J. Decombaz, B. Schmitt, R. Kreis, M. Fleith, B. Decarli, M. Ith, H. Hoppeler & C. Boesch 11A
The glycaemic index of commonly consumed Irish foods.
A. M. Long & M. Moloney 12A
Dietary saturated fat intake but not the *n*-6:*n*-3 ratio determines glucose tolerance and insulin resistance in the rat.
M. M. Sh. Duwaihy & D. J. Millward 12A
Dietary fat quality and the sensitivity of insulin mediated pathways of glucose and lipid tolerance in genotypically uncharacterized middle-aged normal men.
A. C. Fereday, K. A. Slevin, E. Ah Sing, A. Irvine, L. M. Morgan, C. M. Williams, J. Wright & D. J. Millward 13A
The sensitivity of glucose and lipid-related targets of insulin action are unrelated in genotypically uncharacterized middle-aged normal men.
K. A. Slevin, A. C. Fereday, E. Ah Sing, A. Irvine, L. M. Morgan, C. M. Williams, J. Wright & D. J. Millward 13A
The effect of ethanol on postprandial lipoprotein metabolism with particular reference to chylomicrons.
N. Mohd-Esa, A. J. Hawdon, K. Mattu, J. W. Wright, B. A. Griffin & B. J. Gould 14A
A comparison of changes in plasma cholesteryl ester and phospholipid fatty acid composition after a monounsaturated-enriched diet.
B. A. Fielding, R. D. Smith, C. N. M. Kelly, M. C. Nydahl, K. D. R. R. Silva, M. L. Clark, V. Ilic & C. M. Williams 14A
The impact of apoE genotype on postprandial triacylglycerol responsiveness to fish oil supplementation.
A. M. Minihane, S. Khan, E. C. Leigh-Firbank, P. Talmud, B. A. Griffin & C. M. Williams 15A
The presence of ispaghula inhibits the fermentation of lactulose by human faecal bacteria *in vitro*.
M. K. Khan & C. A. Edwards 15A
Dietary precursors of sulphide in the human large intestine.
E. A. M. Magee, C. J. Richardson & J. H. Cummings 16A
Anthropometric results from the North/South Ireland Food Consumption Survey 2000.
S. N. McCarthy, K. E. Harrington, M. J. Gibney, M. Kiely, A. Flynn, P. J. Robson, M. B. E. Livingstone & J. J. Strain 16A
Energy intakes in the Republic of Ireland: analysis of the North/South Ireland Food Consumption Survey.
M. J. McGowan, K. E. Harrington, M. J. Gibney, M. Kiely, A. Flynn, P. J. Robson, M. B. E. Livingstone & J. J. Strain 17A

Pregnant women in Trinidad have low plasma triacylglycerol and small babies.
R. C. Sherman, G. C. Burdge, Z. Ali, K. Lutchman Singh & A. A. Jackson 17A
Gastrointestinal handling and metabolic disposal of different fatty acids during rehabilitation from severe childhood malnutrition.
J. L. Murphy, V. A. Badaloo, B. Chambers, A. Hounslow, T. E. Forrester, S. A. Wootton & A. A. Jackson 18A
Maternal fat intake, green leafy vegetable and fruit consumption, and micronutrient status are related to fetal size at birth in rural India: The Pune Maternal Nutrition Study.
S. Rao, C. S. Yajnik, A. Kanade, B. M. Margetts, A. A. Jackson, R. Shier, S. Joshi, S. Rege, H. Lubree & C. H. D. Fall 18A
Anthropometry of schoolchildren in the Midlands of KwaZulu Natal, South Africa.
E. M. W. Maunder 19A
Nutritional stunting: a family continuum?
M. K. Darboe & E. M. E. Poskitt 19A
Moderate levels of undernutrition have little impact on immune function in rural Gambian children.
S. E. Moore, A. C. Collinson & A. M. Prentice 20A
Food habits in a sample of the immigrant population in Dublin.
K. O'Connor, C. O'Meara & E. Ball 20A
Effects of substituting dietary saturated fatty acids with monounsaturated fatty acids on whole blood platelet aggregation in young healthy volunteers.
C. N. M. Kelly, R. D. Smith, K. D. R. R. Silva, M. C. Nydahl & C. M. Williams 21A
The effect of conjugated linoleic acid on the inflammatory response in humans.
A. P. Nugent, E. Noone, A. Long, D. K. Kelleher, M. J. Gibney & H. M. Roche 21A
α-Linolenic acid metabolism in adult men: evidence for synthesis of eicosapentaenoic and docosapentaenoic acids, but not docosahexaenoic acid.
G. C. Burdge, A. E. Jones, P. Wright, L. Ware & S. A. Wootton 22A
α-Linolenic acid supplementation does not enrich platelet phospholipids with docosahexaenoic acid.
Y. E. Finnegan, E. C. Leigh-Firbank, A. M. Minihane & C. M. Williams 22A
Accounting for variation in baseline diet in fatty acid intervention studies.
C. Bolton-Smith, I. Murrie, R. Barr, I. Currie, R. J. G. Price, S. T. Fenton, J. F. Belch & A. Hill 23A
Oxidative susceptibility of low-density lipoprotein as measured by a micro-fluorescence assay: effects of dietary polyunsaturated fatty acids.
P. A. Wilkinson, Y. M. Jeanes, D. J. Millward, G. Ferns & B. A. Griffin 23A
The effect of fish oil supplementation on serum growth factors in healthy humans.
J. M. W. Wallace, A. J. McCabe, H. M. Roche, S. Higgins, P. J. Robson, W. S. Gilmore & J. J. Strain 24A
Eicosapentaenoic acid supplementation modulates LPS-stimulated PGE_2 release in human blood.
S. A. Bonner, D. Rotondo, K. W. J. Wahle & J. Davidson 24A
Effect of using either bovine serum albumin or ethanol as a vehicle for delivery of oleic acid, eicosapentaenoic acid and docosahexaenoic acid to Chinese Hamster V79 cells.
L. C. O'Sullivan, J. A. Woods & N. M. O'Brien 25A
Effect of supplementation with vitamin E and vitamin C on immune response of sows and their litters in hot environments.
A. Pinelli-Saavedra, J. R. Scaife, A. M. Calderon De La Barca, J. R. Valenzuela & H. Celaya 25A
Effect of administration of a recombinant molecular mimic of phosphorylated prolactin (PP-PRL) on thermoregulation in neonatal lambs.
S. Pearce, A. Mostyn, A. M. Walker, T. Stephenson, R. Webb & M. E. Symonds 26A
Influence of cortisol on uncoupling protein-1 (UCP1) and leptin mRNA expression in perirenal adipose tissue in the late gestation sheep fetus.
A. Mostyn, A. Forhead, D. Keisler, T. Stephenson, A. L. Fowden & M. E. Symonds 26A

The influence of maternal nutrient restriction between early and mid-gestation on 11β-hydroxysteroid dehydrogenase (11βHSD) mRNA abundance in neonatal sheep tissues.
M. E. Symonds, K. M. Firth, H. Budge & C. B. Whorwood 27A
Relationship between prolactin receptor (PRLR) and uncoupling protein-1 (UCP1) abundance in perirenal adipose tissue during neonatal development in lambs.
H. Budge, P. Ingleton, T. Stephenson & M. E. Symonds 27A
Metabolic responses to glucose and essential amino acid infusions in calves.
F. Sadiq, M. C. Wallace, J. Struthers, J. R. Scaife, L. M. Birnie & M. A. Lomax 28A
Purine derivative excretion by one-week-old crossbred (*Bos indicus* × *B. taurus*) calves.
F. Herrera-Gomez, F. D. Deb. Hovell & C. A. Sandoval-Castro 28A
Short-term intake of six local forage trees in Yucatan, Mexico to local zebu cattle (*Bos indicus*).
C. Nieto-Marin, G. Monforte-Braga, A. Ayala-Burgos, G. Rios-Arjona, C. A. Sandoval-Castro, L. Ramírez-Avilés & F. D. Deb. Hovell 29A
Rumen degradation of stover of ten maize varieties cultivated in Yucatan, Mexico.
A. J. Ayala-Burgos, G. Romero-Moraleda, G. Rios-Arjona & F. D. DeB. Hovell 29A
Effect of the amount of maize stover offered to goats and sheep on intake and digestibility.
N. E. Martínez-Viera, G. Rios-Arjona & F. D. DeB. Hovell 30A
Disorders of iron homeostasis in the pregnancy disease pre-eclampsia.
M. P. Rayman, J. Barlis, R. W. Evans, C. W. G. Redman & L. J. King 30A
Serial studies of the gastrointestinal handling of ^{13}C-labelled tripalmitin in preterm infants.
D. J. Mitchell, T. R. J. Tubman, B. G. McClure, L. Genkeer, J. L. Murphy & S. A. Wootton 31A
Highly Active Antiretroviral Therapy (HAART) in Human Immunodeficiency Virus 1-positive men increases the retention time of dietary lipid within the circulation.
L. J. Ware, J. Morlese, B. Gazzard, G. C. Burdge, A. A. Jackson & S. A. Wootton 31A
Children on home enteral tube feeding: feeding practices.
E. McNamara, M. Breslin, P. Flood & N. P. Kennedy 32A
Effects of dietary *n*-3 and *n*-6 PUFA intake on LDL oxidizability and fatty acid composition in patients with advanced atherosclerosis.
J. M. Garry, F. Thies, P. Yaqoob, A. Chulakadabba, J. Williams, P. J. Gallagher, C. P. Shearman, P. C. Calder & R. F. Grimble 32A
An energy deficit approach to weight management during nutritional counselling post myocardial infarction.
C. R. Hankey, W. S. Leslie & M. E. J. Lean 33A
Fish consumption and self-reported physical and mental health status.
K. M. Silvers & K. M. Scott 33A
In vivo antioxidant status and levels of lipid peroxidation in subjects with Type I diabetes.
M. P. A. Hannon-Fletcher, M. J. O'Kane, K. W. Moles, C. Weatherup, C. R. Barnett & Y. A. Barnett 34A
Bioavailability of cancer-protective isothiocyanates following ingestion of cooked cabbage, coleslaw and mustard by healthy human subjects.
G. Rouzaud, A. J. Duncan, S. Young & B. Ratcliffe 34A
Antioxidant potential of green and black tea determined using the ferric reducing power (FRAP) assay.
S. C. Langley-Evans 35A
Consumption of black tea elicits an increase in plasma antioxidant potential in humans.
S. C. Langley-Evans 35A
The effects of phenolic components of tea on phagocytosis and respiratory burst by human neutrophils and monocytes.
S. Crouvezier & P. Yaqoob 36A
The effects of phenolic components of tea on the production of inflammatory cytokines in human whole blood cultures.
B. Powell, S. Crouvezier, D. Keir & P. Yaqoob 36A

Modulation of rat tissue xenobiotic-metabolizing enzymes by nomilin, a citrus phytochemical.
C. Kelly, C. Jewell & N. M. O'Brien 37A
The potential of the flavonoids, quercetin and rutin, butylated hydroxytoluene and iron chelators to protect against DNA single strand breaks in Caco-2 cells.
S. A. Aherne & N. M. O'Brien 37A
The effects of an extract of cocoa powder on induced DNA damage measured by the Comet assay.
R. J. Hambly, E. A. Offord-Cavin, A. M. Pfeifer, I. R. Rowland & P. C. Rumsby 38A
Generation of oxidative stress during oxysterol-induced apoptosis in U937 cells.
Y. C. O'Callaghan, J. A. Woods & N. M. O'Brien 38A
α-Tocopherol, but not α-tocopherol, prevents oxysterol-induced apoptosis in a human monocytic cell line.
N. M. Lyons, J. A. Woods & N. M. O'Brien 39A
International evaluations of cancer preventive agents: results from first volumes of the IARC Handbooks of Cancer Prevention.
H. Vainio & F. Bianchini 39A
Vitamin E intake of national samples of 4-year-old children in 1950 and 1992/93.
K. M. Collins, C. J. Prynne, A. A. Paul, N. S. Malik, C. W. Thane & M. E. J. Wadsworth 40A
Phylloquinone (vitamin K_1) status in British elderly people: findings from a recent National Diet and Nutrition Survey.
C. W. Thane, C. J. Bates, A. A. Paul & M. J. Shearer 40A
Micronutrient intake of free-living elderly people.
N. Saini, S. M. Maxwell, L. Dugdill & A. M. Miller 41A
The North/South Ireland Food Consumption Survey 2000: Mineral intakes in 18–64 year old adults.
E. M. Hannon, M. Kiely, A. Flynn, M. J. Gibney, K. E. Harrington, P. J. Robson & J. J. Strain 41A
Individual differences in the P ratio during pregnancy.
S. L. Duggleby & A. A. Jackson 42A
Estimation of energy expenditure in adolescents using Caltrac™ and its use to validate reported energy intake as estimated from 3-day food diaries.
C. Frobisher & S. M. Maxwell 42A
The effect of aspartame and aspartame constituents on gastric emptying, plasma cholecystokinin and glucagon-like peptide-1 response and self-rated appetite scores.
W. L. Hall, A. Giouvanoudi, P. J. Rogers, N. Spyrou & L. M. Morgan 43A
Inter- and intra-individual variability in the glycaemic response to white bread.
A. M. Smith & M. Moloney 43A
Relationship between measures of adiposity, insulin sensitivity and lipaemia in post-menopausal women.
J. A. Lovegrove, J. W. Wright & C. M. Williams 44A
Different postprandial responses of larger and smaller chylomicrons and remnant particles.
K. D. R. R. Silva, A. E. Jones, R. D. Smith, C. N. M. Kelly, J. A. Lovegrove, S. A. Wootton & C. M. Williams 44A
The acute effects of ethanol on postprandial lipid metabolism: a follow-up study.
A. J. Hawdon, N. Mohd Esa, E. Maloutas, J. W. Wright, B. J. Gould & B. A. Griffin 45A
Effects of substituting dietary saturated fatty acids with monounsaturated fatty acids on blood lipids in young healthy volunteers.
R. D. Smith, C. N. M. Kelly, K. D. R. R. Silva, M. C. Nydahl & C. M. Williams 45A
Conjugated linoleic acid: the effect of supplementation on plasma lipid metabolism.
E. J. Noone, A. P. Nugent, H. M. Roche & M. J. Gibney 46A
Platelet docosahexaenoic acid but not eicosapentaenoic acid levels following fish oil supplementation are related to changes in low-density lipoprotein cholesterol (LDL-C).
A. M. Minihane, E. C. Leigh-Firbank, S. Khan, M. C. Murphy, B. A. Griffin & C. M. Williams 46A

The effect of maternal iron deficiency on fetal growth in hooded Lister rats.
H. J. McArdle, S. Gair, C. Antipatis & L. Gambling 47A
Iron deficiency during pregnancy affects maternal and fetal vitamin A metabolism in the rat.
L. Gambling, C. Antipatis & H. J. McArdle 47A
New continuous culture model of the colon of the breast-fed infant.
A. M. Parrett, C. A. Edwards, S. A. S. Savage, A. Fletcher, F. Martin, C. A. Grammet & J. Dore 48A
Comparison of faecal short-chain fatty acids in breast-fed, formula-fed and mixed-fed neonates.
A. M. Parrett, K. Farley, A. Fletcher & C. A. Edwards 48A
Caecal short-chain fatty acids and colonic microflora in a human flora-associated rat model of the breast-fed infant.
C. A. Edwards, C. J. Rumney, F. Martin, S. A. H. Savage, C. A. Grammet, J. Dore A. Fletcher, D. Smith, I. R. Rowland & J. Schmitt 49A
The effect of breast milk, infant formula and soya-milk formula on faecal ammonia concentration and bacterial enzyme activity in infants.
L. Hoey, I. R. Rowland, P. M. Heavey & J. S. Brown 49A
Intrauterine exposure to a maternal low-protein diet shortens lifespan in rats.
S. C. Langley-Evans, A. Aihie Sayer, R. Dunn & C. Cooper 50A
Childhood microalbuminuria may be a marker of reno-vascular programming.
M. C. Marchand, S. C. Langley-Evans, R. C. Sherman, M. O. Nwagwu & T. Wheeler 50A
Hypertension in the mouse following intrauterine exposure to a maternal low-protein diet.
R. L. Dunn, S. C. Langley-Evans, A. A. Jackson & C. B. Whorwood 51A
Associations between dietary factors and bone health indices in pre- and peri-pubertal elite female gymnasts and sedentary controls: baseline findings from a longitudinal study.
J. A. Nurmi, J. A. Bishop, P. Taylor, C. Cooper & S. A. New 51A
Nutrient intake in elite female gymnasts and healthy age-matched controls: analysis of longitudinal data.
J. A. Nurmi, J. A. Bishop, S. Carr-Bains, V. Green, B. Helby, M. Ieriti, E. Sheppard & S. A. New 52A
Attitudes to food and handling of nutrition concepts among school-aged children in Guildford.
K. H. Hart, J. A. Bishop, E. Buchanan-Barrow & H. Anthony 52A
Impact of milk intake on bone health of peri- and early post-menopausal Scottish women: confounding effects of menopausal status and HRT use.
H. M. Macdonald, S. A. New, M. H. N. Golden, D. A. Grubb & D. M. Reid 53A
Moderate vitamin A deficiency during pregnancy affects fetal organ growth in the pig.
C. J. Ashworth & C. Antipatis 53A
Diet and systemic lupus erythematosus.
E. M. Duffy, J. J. Strain, B. M. Hannigan & A. L. Bell 54A
Comparison of nutritional status in elderly patients with a fractured neck of femur with age-matched controls.
M. C. Murphy, S. A. New & M. Lumbers 54A
Effects of radiotherapy treatment on dietary intake in patients with cancer of the head and neck.
E. E. Broadhead, P. M. Hughes, C. G. Kelly & C. J. Seal 55A
Changes in taste, appetite and quality of life in patients with cancer of the head and neck during radiotherapy treatment.
E. E. Broadhead, P. M. Hughes, C. G. Kelly & C. J. Seal 55A
The North/South Ireland Food Consumption Survey 2000: Vitamin intakes in 18–64 year-old adults.
M. M. O'Brien, M. Kiely, A. Flynn, M. J. Gibney, K. Harrington, P. Robson, M. B. E. Livingstone & J. J. Strain 56A
Vitamin E metabolism: tocotrienols are metabolized to their carboxyethyl-hydroxychromanol derivatives and excreted in human urine.
J. K. Lodge & M. G. Traber 56A

Dietary intake and sources of phylloquinone (vitamin K_1): regional differences in British elderly people.
C. W. Thane, A. A. Paul, C. J. Prynne & C. Bolton-Smith 57A
Ascorbic acid intake and biochemical status in the National Diet and Nutritional Survey of people aged 65 years and older.
R. L. Thompson, B. M. Margetts & A. A. Jackson 57A
Implications of fortification of white flour with folic acid on total folate intake by adolescents.
A. J. Adamson, A. J. Rugg-Gunn, T. J. Butler & P. J. Moynihan 58A
Effect of vitamin B_{12} status on homocysteine levels in healthy male subjects.
N. J. Mann 58A
How does dietary non-starch polysaccharide intake affect plasma micronutrient levels? Results from the UK Women's Cohort Study.
J. Cade, D. Greenwood, T. Neenan, C. Calvert, K. White & C. Schorah 59A
Iron status, diet and cognitive function in British adolescent girls.
M. Nelson, R. Ash, C. Mulvihill, T. J. Peters & P. Rogers 59A
Implications of reduced red and processed meat consumption for iron intakes among British women.
S. Gibson & M. Ashwell 60A
Intake and sources of selenium in British elderly people.
C. W. Thane & C. J. Bates 60A
The evidence for high meat intake during the evolution of hominids.
N. J. Mann 61A
The Mediterranean diet in Australia: sustainability issues.
S. Somerset & D. Colquhoun 61A
Measuring the fat and energy content of the family diet: how do supermarket receipts compare with the four-day weighed food intake method and a food frequency questionnaire?
J. K. Ransley, J. K. Donnelly, H. Botham, T. N. Khara, H. Arnot, J. E. Cade & D. C. Greenwood 62A
Validity of assessment of fruit and vegetable consumption using a simple cross-check question.
A. Greenhalgh & J. Cade 62A
The 24-h recall: a combined qualitative and quantitative nutrition research tool.
P. M. Kenyon, P. Newton & M. E. Barker 63A
Systematic review of the validation of food frequency questionnaires.
D. L. Warm, V. J. Burley, R. L. Thompson, B. M. Margetts & J. E. Cade 63A
Characteristics of under- and over-reporters from the UK Women's Cohort Study (UKWCS).
L. Buckley, D. C. Greenwood & J. E. Cade 64A
Dietary restraint and the mis-reporting of anthropometric measurements by middle-aged adults.
A. Cullum, D. Gunnell, G. Davey Smith & Y. Ben-Shlomo 64A
The North/South Ireland Food Consumption Survey 2000: Dietary fibre intakes of Irish adults.
M. Galvin, M. Kiely, A. Flynn, K. E. Harrington, M. J. Gibney, P. J. Robson, M. B. E. Livingstone & J. J. Strain 65A
The consumption of fruits and vegetables by Scottish children of primary school age.
E. Foster, A. J. Adamson, L. E. G. Porteous, C. Higgins, M. M. Hetherington & A. S. Anderson 65A
Gender differences in dietary habits in a population of primary school children.
P. M. L. Skidmore, J. W. G. Yarnell, G. E. McGeough, J. McMahon, M. Shields, A. Scott & A. Evans 66A
A city-wide survey of the eating habits of 9 and 11 year old children in Liverpool.
A. F. Hackett, M. Gibbon, G. Stratton & E. Hamill 66A
Food intakes of Scottish schoolchildren aged 5½ to 8½ years: are mothers' eating habits related?
P. J. Longbottom, W. L. Wrieden, C. M. Pine & J. A. Davies 67A

The influence of parental adiposity and behaviours in middle age on offspring adiposity.
A. Cullum, D. Gunnell, G. Davey Smith, A. McCarthy & Y. Ben-Shlomo 67A
The effect of the oral contraceptive pill on food intake, dietary restraint and iron status.
M. Brown, O. Cotter & S. L. Reeves 68A
The relationship between dental status and intake of fruits and vegetables by older adults.
P. J. Moynihan, R. Greaves, A. W. G. Walls, N. Steen, A. Sheiham, W. Marcenes & J. Steele 68A
The nutrient intakes of vegetarian and omnivorous adolescents in North-West England.
L. Burgess, A. F. Hackett, S. Maxwell & M. Rouncefield 69A
Dietary intake and nutritional status of young vegans and omnivores in Sweden.
C. L. Larsson & G. Johansson 69A
The relationship between starch and fat consumption in a UK population.
P. J. Curtis, A. J. Adamson & J. C. Mathers 70A
Immune function in rural Gambian children is not related to season of birth, birth size or maternal supplementation status.
S. E. Moore, A. C. Collinson & A. M. Prentice 70A
Energy requirements of confined cats estimated by the doubly-labelled water method and indirect calorimetry.
J. Decombaz, J. Ambrose, R. Rudnick, G. Gremaud, C. Piguet-Welsch, D. Chausow & O. Ballevre 71A
Responses of piglet tissue composition to increasing maternal intake of long chain *n*-3 polyunsaturated fatty acids.
J. A. Rooke, A. G. Sinclair, M. Ewen & L. M. Birnie 71A
Both moderate vitamin A deficiency during pregnancy and birth weight affect piglet immunity.
C. Antipatis, J. A. Rooke, M. Ewen & C. J. Ashworth 72A
Effects of supplementing the maternal diet with vitamins and vaccinating the sow on immunoglobulin G concentrations in piglet plasma.
I. M. Bland, J. A. Rooke, A. G. Sinclair, V. C. Bland & S. A. Edwards 72A
Effect of anaerobic fermentation of jack bean (*Canavalia ensiformis*) grain, with and without molasses as an additive, on its acceptance by pigs.
R. Nava-Montero & R. Belmar 73A
The effect of composition of gain during a winter store period on beef cattle performance.
L. Heasman, D. G. Chapple, K. P. A. Wheeler, N. S. Prathalingham & M. A. Lomax 73A
Effect of diet on nitrogen partitioning between carcass and individual organs of growing beef cattle fed at similar levels of metabolizable energy intake.
E.-J. Kim, A. Cooper, D. S. Parker, J. M. Dawson, P. J. Buttery, M. S. Dhanoa & N. D. Scollan 74A
Effects of diet and length of feeding period on the fatty acid content of the phospholipid fraction of bovine *longissimus dorsi* muscle.
N. J. Choi, M. Enser, J. D. Wood & N. D. Scollan 74A
Effect of rumen fish oil injection on *in vivo* digestion and fermentation characteristics: differences in animal response.
V. Fievez, M. Danneels & D. Demeyer 75A
Levels of protein intake in young restricted steers do not affect myofibrillar protein degradation.
N. S. Prathalingam, J. R. Scaife, L. Heasman, J. R. Parker, D. G. Chapple & M. A. Lomax 75A
Dietary supplement use in women: costs and frequency of use.
A. Greenhalgh, J. Cade & C. Richardson 76A
Attitudes to food and handling of nutrition concepts among school-aged children in Guildford.
K. H. Hart, J. A. Bishop, E. Buchanan-Barrow & H. Anthony 76A
Food choice and socio-economic variables in relation to young women's confidence in cooking specific foods.
J. M. Lawrence, R. L. Thompson & B. M. Margetts 77A

Dietary advice and assessment by practice nurses in routine consultations: missed opportunities?
D. L. Warm, P. S. Little & J. Barnett 77A
Nutrition in the news!
A. Eves, M. Lumbers & M. Kipps 78A
Assessment of knowledge about osteoporosis of postmenopausal women referred for bone densitometry.
J. Earland, C. Wright, J. Klienmann, L. M. Wallace, J. Barlow & A. Parsons 78A
Perception of relationships between diet and cancer and reported dietary changes over the previous five years.
M. Lumbers, A. Eves, M. Kipps & S. Gibson 79A
Probiotics: perceptions and dietetic practice.
C. Brice, B. McKevith & C. Shortt 79A
Current public misunderstandings about peanuts as part of a balanced diet: an opportunity for further research and a need for better education?
C. Chapman 80A
Survey of General Practitioners' attitudes to and advice given on peanuts.
L. Collis & C. Chapman 80A
Nutritional status of children on admission to a children's hospital.
H. McCarthy & H. R. M. McIvor 82A
The effect of nutritional management on the mood of undernourished patients.
J. Field, Z. Stanga, D. N. Lobo & S. P. Allison 82A
Hepatic and whole body protein metabolism in hypoalbuminaemic haemodialysis patients.
J. D. Louden, R. Edson, C. Alexander, D. Reaich, K. Bartlett & T. H. J. Goodship 83A
Nutritional status of traumatic and anoxic brain-injured patients on admission to rehabilitation.
M. A. Thomson, A. D. Carver & R. L. Sloan 83A
Prospective cost-effectiveness analysis of a nutritional support team.
K. Ward, N. C. Moran, C. E. Wright, E. R. Brierley, K. Waters, M. James & A. J. Makin 84A
Home parenteral nutrition in Scotland.
R. F. McKee 84A
The metabolic response to endotoxin in man is augmented by glucose–insulin infusion.
A. O. Agwunobi, M. Soop, C. Childs, R. G. Cooper, P. Maycock, R. A. Little & G. L. Carlson 85A
Glutamine and glutathione ameliorate the liver dysfunction related to sepsis in neonatal rats.
R. Babu, S. Eaton, L. Spitz, D. P. Drake & A. Pierro 85A
Acute glutamine deprivation facilitates TNF-α-induced bacterial translocation across Caco-2 cell monolayers.
E. C. Clark, S. D. Patel, P. R. Chadwick, G. Warhurst & G. L. Carlson 86A
Gastric emptying and cholecystokinin response following the ingestion of dietary oils of differing fatty acid composition.
M. D. Robertson, K. G. Jackson, B. A. Fielding, C. M. Williams & K. N. Frayn 86A
Moderate hypothermia ameliorates liver energy failure during intestinal ischaemia-reperfusion.
P. Vejchapipat, S. R. Williams, E. Proctor, L. Spitz & A. Pierro 87A
The hepatocyte metabolic response to thermal stress: implications for acute phase protein production.
S. J. Wigmore, K. C. H. Fearon, H. W. Harris & W. J. Welch 87A
Intestinal ischaemia-reperfusion injury causes a sustained rise in serum inorganic phosphate concentration.
S. B. Williams, S. R. Williams, L. Spitz & A. Pierro 88A
Exposure to TNF-α, IFN-γ and LPS reduces insulin-stimulated 2-deoxyglucose uptake in isolated murine soleus muscle.
C. R. Byrne, R. Little & G. L. Carlson 88A

IFNγ-induced increases in bacterial translocation are dissociated from increased paracellular permeability in intestinal epithelial monolayers.
E. C. Clark, C. J. Watson, P. R. Chadwick, G. L. Carlson & G. Warhurst 89A
Conjugated linoleic acid reduces breast tumour growth.
B. Majumder, S. Moir, K. Wahle & S. D. Heys 89A
Are the anti-tumour effects of conjugated linoleic acid mediated by increased expression of key genes involved in the apoptotic pathway?
B. Majumder, A. Farquharson, K. Wahle & S. D. Heys 90A
Changes in body composition in post-menopausal women receiving endocrine therapy for early breast cancer.
M. N. Harvie, I. T. Campbell, A. Baildom, A. Howell & N. Thatcher 90A
The impact of oral ingestion of free L-glutamine on glutathione blood levels in volunteers.
E. Valencia, A. Marin & G. Hardy 91A
Changes in total body potassium in advanced cancer patients receiving chemotherapy.
M. N. Harvie, I. T. Campbell, M. A Keegan, B. Murby, A. Baildom, A. Howell & N. Thatcher 91A
Different response of cardiac and renal mitochondria to sepsis mediators in the neonatal period using a rat model.
K. Fukumoto, S. Eaton, L. Spitz & A. Pierro 92A
Sepsis enhances the inhibitory effect of fentanyl on neonatal oxidative liver metabolism.
M. Zamparelli, S. Eaton, L. Spitz, G. Amici, A. Martino & A. Pierro 92A
The effect of somatostatin and replacement insulin on whole body protein turnover in multiple organ failure.
I. T. Campbell, M. A. Keegan, M. Nirmalan, I. Katsanika, K. Smith, O. Rooyakers, R. A Little, W. Taylor & M. J. Rennie 93A
Oat fibre reduces colitis and stabilizes the gut mucosal barrier in interleukin-10 knockout mice.
R. J. Kennedy, M. Hoper, P. J. Erwin, K. Deodhar, S. J. Kirk & K. R. Gardiner 93A
Post-prandial fatty acid release from adipose tissue and skeletal muscle.
K. Evans, G. C. Burdge, M. L. Clark, S. A. Wootton & K. N. Frayn 94A
Use of retinyl esters as a marker in test meals of varying fatty acid composition to examine entry into the circulation of previously ingested fat following a second meal.
K. G. Jackson, M. D. Robertson, B. A. Fielding, K. N. Frayn & C. M. Williams 94A
Fatty acid composition of triacylglycerol and non-esterified fatty acids in arterial and adipose venous plasma.
K. Evans, G. C. Burdge, M. L. Clark, S. A. Wootton & K. N. Frayn 95A
Nutritional and metabolic aspects of a hill-walk.
P. N. Ainslie, I. T. Campbell, K. N. Frayn, S. M. Humphreys, D. P. M. MaClaren & T. Reilly 95A
Validation of 'in body' bioelectrical impedance by whole-body MRI.
E. L. Thomas, G. Frost, T. Harrington & J. D Bell 96A
A pilot study to assess the effectiveness of a nasal loop in securing nasogastric feeding tubes in dysphagic stroke patients.
M. O'Connor, J. Woodward & D. O'Mahony 96A
Outcomes of patients with a percutaneous endoscopic gastrostomy: a two-year interface audit.
J. Watson, B. Abrahams, J. Wilson, D. Sherman & C. Cayley 97A
A review of services provided for patients who required placement of percutaneous endoscopic gastrostomies (PEG): stage one: patients' experiences.
M. Bhinda & L. Perry 97A
Blind placement of nasojejunal tubes in an intensive care unit.
H. J. Peake, N. E. Jones, G. Baldock & G. S. Frost 98A
Endoscopically placed naso-jejunal feeding tubes in ICU patients: a retrospective review.
A. L. Jukes 98A

A study of the impact and cost-effectiveness of introducing hospital pharmacist prescribing into neonatal parenteral nutrition.
M. Powell, H. Martin , J. Puntis & I. Goss 99A
Pump alarm pressures and Pall *Lipipor* TNA filters.
E. Maynard & A. Seacombe 99A
Analysis of occluded intravenous lipid filter membranes during clinical use.
D. Cope, L. Thompson & C. Hartt 100A
Can glutamine and vitamin losses during continuous renal replacement therapy (CRRT) be minimized by supplementation?
A. Marin & G. Hardy 100A
Long-term stability of L-glutamine infusions for clinical administration.
B. McElroy, A. Marin & G. Hardy 101A
Stability of fructose-1,6-diphosphate total parenteral nutrition mixtures containing calcium.
W. Hicks & G. Hardy 101A
Parenteral nutrition: treat with respect, handle with care.
J. F. Davis & D. L. Booth 102A
A clinical audit of a sample of adult patients receiving home enteral nutrition (HEN) in Avon during 1998 and 2000.
L. Martin 102A
An audit to evaluate the effectiveness of a nutritional support team at assessing, prescribing and monitoring parenteral nutrition.
S. T. Burden, K. Ward, A. Holt, A. Egan, J. Norman, F. Leslie, C. E. Wright & A. J. Makin 103A
Patterns of prescribing of nutritional supplements in the United Kingdom.
J. Edington, S. Coles, C. R. Gale & C. N. Martyn 103A
Monitoring adult enteral nutrition: a national audit carried out on behalf of the Parenteral and Enteral Nutrition Group of the British Dietetic Association.
C. McAtear 104A
The relationship between whole-body RNA and protein turnover in critically-ill children.
L. F. R. Maioral, A. Pierro, S. B. Malik, M. R. Powis, J. Opacka-Juffry, M. J. Rennie & G. K. Grimble 104A
Central temperature threshold changes involved in thermoregulation after Lipopolysaccharide (LPS)-induced fever in adult men.
C. Childs, A. O. Agwunobi & G. L. Carlson 105A
The metabolic cost of thermal stress on human hepatocytes: implications for differentiated cell function.
S. J. Wigmore, K. C. H. Fearon & W. J. Welch 105A
Plasma cytokine concentrations following carotid endarterectomy in patients supplemented pre-operatively with oils rich in *n*-6 or *n*-3 fatty acids.
J. M. Garry, A. Chulakadabba, F. Thies, P. Yaqoob, J. Williams, C. P. Shearman, R. F. Grimble & P. C. Calder 106A
Xenon washout and microdialysis 'ethanol escape' techniques give discrepant results when monitoring changes in adipose tissue blood flow after oral glucose.
F. Karpe, B. A. Fielding, V. Ilic, S. M. Humphreys & K. N. Frayn 106A
Lower postprandial apolipoprotein B48 and increased chylomicron particle size in subjects on a high monounsaturated fat diet.
K. D. R. R. Silva, A. E. Jones, R. D. Smith, C. N. M. Kelly, J. A. Lovegrove, S. A. Wootton & C. M. Williams 107A
Benchmarking knowledge and understanding of clinical nutrition in an NHS Trust.
H. Rollins, J. Arnold, K. Buckner & R. A. Richardson 107A
Feeding through an open wound? A novel approach when parenteral nutrition fails.
R. Barlow & B. Rees 108A

The development of catheter care procedures and protocols a national clinical network.
J. Tait, D. Barber, L. Davidson, K. Keiran, G. McHattie, A. MacCrimmon, T. McKeown, C. Muir & P. Rodgers 108A
Tolerance and non-tolerance in colorectal surgical patients of enteral nutrition administrated from the first postoperative day for 5 days.
L. Williams, S. A. El Gaddal & D. J. Leaper 109A
Peripherally inserted central catheter placement for total parenteral nutrition: a six-month survey.
J. McGovern, L. Hindle & I. W. Fellows 109A
Audit of nutritional screening and weight change in patients in an acute hospital trust.
J. Arnold, L. Wybrew, H. Rollins, A. Smith & N. Simmonds 110A
Paediatric parenteral nutrition and nutrition support teams in the United Kingdom.
P. M. Sacher 110A
Does multidisciplinary nutrition team care in the first 6 months post-PEG have an impact on clinical course? An interim analysis.
H. F. Scott, F. J. Smedley, L. Timmis, R. Beech, C. Roffe & T. E. Bowling 111A
A study to evaluate the effectiveness of a nutrition support team within a university teaching hospital.
K. Ward, S. T. Burden, C. E. Wright, N. C. Moran, E. R Brierley, F. Leslie, K. Waters & A. J. Makin 111A
Are patients on the Avon Home Enteral Feeding Scheme receiving their RNI for vitamins/minerals?
A. Judd 112A
Screening swallowing function of patients with acute stroke: validity of a screening tool used by nurses.
L. Perry, S. McLaren & M. O'Hara 112A
Relationship between fluid administrations and outcome in colorectal surgery.
A. Frost, C. H. Wakefield, F. Sengupta & K. C. H. Fearon 113A
Dilutional hypoalbuminaemia: myth or reality?
D. N. Lobo, Z. Stanga, J. A. D. Simpson, J. A. Anderson, B. J. Rowlands & S. P. Allison 113A
Enteral feeding practices on a children's intensive care unit, children's hospital, Leicester Royal Infirmary: a complete audit cycle.
S. McDowell 114A
Nationwide intensive care unit questionnaire to investigate the diversity of nutritional practice.
H. M. Dewar 114A
Fluid therapy influences nutrition in intensive care: a prospective evaluation of practice.
P. Ravasco & M. E. Camilo 115A
Effect of enteral glutamine administration on the serum and tissue glutathione levels in an animal model of intestinal obstruction.
H. T. Besler, M. M. Özmen, M. Özkirli & N. A. Kama 115A
Identifying needs in nutrition education: a partnership approach.
V. E. Todorovic, R. A. Richardson & K. Buckner 116A
Effect of increasing intake of *n*-3 PUFAs and co-supplementation with antioxidants on lymphocyte proliferative response in healthy humans.
T. Trebble, E. A. Miles, M. Stroud & P. C. Calder 116A
Anti-inflammatory effects of elemental diet on Crohn's disease-affected tissue *in vitro*.
D. Meister, M. C. Aldhous, A. Shand, J. Bode, W. Johnson, S. Giffen, N. Anderson & S. Ghosh 117A
Variability in U.K. vitamin D reference ranges.
P. J. Twomey & J. R. Paterson 117A
Energy and protein intake in hospital patients after oesophagogastrectomy for oesophageal cancer.
P. M. Murphy, E. C. Cawdery & W. G. Lewis 118A
Nutritional status of elective gastrointestinal surgical patients pre- and post-operatively.
S. B. Fettes, R. A. Richardson, R. Chen & C. R. Pennington 118A

Hydrochloric acid in the treatment of central venous catheter-related sepsis: a retrospective analysis of safety and efficacy.
A. J. Fowell, C. Hayward, C. Chadwick, S. Gabe & A. Forbes 119A
Argon plasma coagulation for the treatment of PEG site hypergranulation.
R. C. Evans, R. Nicholson & P. A. O'Toole 119A
Stability of reduced glutathione in parenteral nutrition mixtures with or without glutamine.
E. Valencia, A. Marin & G. Hardy 120A
Pall *Lipipor* TNA filterability studies with Baxter Clinomel.
E. Maynard & G. Barnes 120A
Audit of biochemical monitoring of total parenteral nutrition.
N. Polanska, A. Micklewright, I. Fellows & C. Nwokolo 121A
Food choice of adults with intestinal failure on home parenteral nutrition.
C. A. Wright & J. L. Shaffer 121A
Comparison of basic parenteral nutrition solutions for neonates: is standardization possible?
B. U. Kluettgens, G. J. Sewell & A. J. Nunn 122A
A two-year audit on percutaneous endoscopic gastrostomy: is the nutrition support team generating more work?
D. H. L. Ng, L. Timmis & T. E. Bowling 122A
Evaluation of the validity and reliability of a computerized nutritional screening tool.
J. Sim 123A
The efficacy of dietary advice and oral nutritional supplements in the management of illness-related malnutrition: a systematic review.
C. Baldwin & T. J. Parsons 123A
α-Tocopherol supplementation does not prevent acute alcohol-induced heart muscle damage.
M. Koll, V. B. Patel, R. A. Sherwood, H. K. Seitz, U. A. Simanowski, P. J. Richardson, T. J. Peters & V. R. Preedy 125A
The effects of a nitric oxide donor and a nitric oxide synthase inhibitor on the ethanol-induced reduction of jejunal protein synthesis.
R. Rajendram, J. S. Marway, D. Mantle, T. J. Peters & V. R. Preedy 125A
Malondialdehyde–protein adducts in Type I and Type II fibre predominant muscles of rats exposed to alcohol and cyanamide.
O. Niemela, S. Parkkila, M. Koll, T. J. Peters & V. R. Preedy 126A
Skeletal muscle protein content is reduced in male and female rats by a novel high-fat/low-carbohydrate alcohol diet.
R. J. Hunter, K. O. Lindros, H. A. Jarvelainen & V. R. Preedy 126A
Skeletal muscle myostatin expression is unaffected by alcohol.
R. J. Hunter, M. Wehling, R. Rajendram, J. Tidball & V. R. Preedy 127A
The association of docosahexaenoic acid with reduced heart and other chronic diseases in China suggests a new hypothesis linking the cell membrane as the site of initiation.
Y. Q. Wang, M. A. Crawford, J. S. Chen, J. Y. Li, K. Ghebremeskel, T. C. Campbell, W. X. Fan, R. S. Parker & J. Leyton 127A
Relationships between the structure of dietary flavonoids and their effect on colonic cell proliferation.
F. Depeint, J. M. Gee & I. T. Johnson 128A
Cell ferritin content as a measure of iron uptake into Caco-2 cells from food digests.
S. Pariagh, P. Sharp, E. K. Lund & S. J. Fairweather-Tait 128A
Implications of feruloyl esterase activity in colonic health.
C. B. Faulds, D. Couteau, G. W. Plumb, G. R. Gibson & G. Williamson 129A
Effects of processing and storage on the antioxidant activity in vegetables.
K. J. Hunter & J. M. Fletcher 129A

Effect of final core temperature and days of storage on retention of vitamin B_6 and vitamin B_2 in *sous-vide* processed pork roast.
A. Lassen 130A
A natural seed oil rich in *n*-6 and *n*-3 fatty acids.
Y. Q. Wang, K. Ghebremeskel & M. A. Crawford 130A
Cooking and the fatty acid composition of herring, farmed salmon and rainbow trout.
D. C. Bitsanis, P. Lumumba, M. Leighfield, K. Ghebremeskel & M. A. Crawford 131A
Calculated energy intake *versus* anthropometric measures as a predictor of the need for dietary change in children with cystic fibrosis.
T. Thomas & M. Lawson 131A
Accuracy, reliability and linearity of air displacement plethysmography in body composition research.
A. L. Collins & H. D. McCarthy 132A
A comparison of bone mineral density and body composition between anorexics, bulimics and healthy controls.
A. L. Collins, D. M. Reid, H. Miller, G. McNeill & B. Durham 132A
Anthropometric assessment of the nutritional status of South Asian children in the UK and in Pakistan.
R. Hakeem, J. Thomas and S. H. Badruddin 134A
Correlation between dietary and urinary phyto-oestrogens (genistein and daidzein) in healthy adults.
M. R. Ritchie, M. S. Morton, C. Bolton-Smith & J. H. Cummings 136A
Dietary cravings and aversions in pregnancy.
B. Al-Rasasi, R. Siegler, J. Nichols, J. Coad & J. Morgan 136A
Comparison of a semi-quantitative food frequency questionnaire with 4-day weighed diet records in Scottish men and women.
L. F. Masson, G. McNeill, J. O. Tomany, H. S. Peace, C. Bolton-Smith & D. A. Grubb 137A
Infusion of glucose and essential amino acids downregulate the expression of components of the ubiquitin-dependent proteolytic pathway in growing calves.
F. Sadiq, M. C. Wallace, J. Struthers, J. R. Scaife, L. M. Birnie, D. Attaix & M. A. Lomax 137A
Comparison of the effects of different ratios of *n*-6 and *n*-3 polyunsaturated fatty acids on faecal egg output and mucosal mast cell numbers in a mixed model nematode infection in pre-ruminant calves.
K. N. Muturi, M. Wallace, J. Struthers, J. Scaife, M. A. Lomax, F. Jackson, E. Jackson, J. Huntly, A. MacKellar & B. Coop 138A
The effect of rumen-protected protein on plasma insulin, growth hormone, IGF-1 and glucose in sheep.
K. N. Muturi, L. M. Birnie, J. Struthers, M. Donald & M. A. Lomax 138A
Programming of blood pressure and renal structure in rats exposed to nitrogen-supplemented maternal low protein diets.
M. C. Marchand, R. L. Dunn, A. A. Jackson & S. C. Langley-Evans 139A
Relationships between polyunsaturated fatty acid (PUFA) composition of umbilical cord, brain and liver in new-born piglet born to sows fed diets differing in *n*-3 PUFA composition.
J. A. Rooke, A. G. Sinclair, L. M. Birnie & M. Ewen 139A
Maternal docosahexaenoic acid supplementation and fetal accretion.
C. Montgomery, B. Speake, A. Cameron, N. Sattar & L. T. Weaver 140A
Maternal nutrient intake, educational level, smoking and birth weight in a cohort of pregnant women.
G. McNeill, J. Baker, D. M. Campbell, S. Johnston, C. Bodner & A. Seaton 140A
Day-to-day variation in concentrations of iron, zinc and copper in the breast-milk of Guatemalan mothers.
M. Vossenaar, R. A. M. Rutten, C. E. West, K. Schümann, J. Bulux & N. W. Solomons 141A

Dietary interventions in general dental practice: formative research for the development of a dietary intervention pack.
K. L. Barton, A. S. Anderson, C. M. Pine & M. G. Paterson 141A
A 'Fast Food' school meal service: the contribution to meeting nutritional requirements.
J. Armstrong, L. Goldberg & R. Hewitt 142A
School meals: an intervention to improve food choices and nutrient intakes.
B. Miller & J. Armstrong 142A
Results from a school-based nutrition education intervention aimed at increasing fruit and vegetable intake in primary-school aged children.
A. S. Anderson, A. Adamson, M. M. Hetherington, E. Foster, L. Porteous & C. Higgins 143A
Cystic fibrosis-associated liver disease: a case-controlled study of patients in the Republic of Ireland.
C. Corbett, S. Kelleher, M. Rowland, G. Canny, P. Greally, L. E. Daly & B. Bourke 143A
Production of short-chain fatty acids from mixtures of guar gum and Raftilose™ *in vitro*.
M. K. Khan & C. A. Edwards 144A
Bioavailability and efficacy of iron supplemented orally as ferric-amino acid chelates in the rat.
A. A. Abdel-Gayoum, M. M. El-Ajaily & B. S. Baio 144A
Seasonal differences in vitamin D status in elderly people.
J. P. Vyvyan, B. O'Hanrahan, H. S. Peace & G. McNeill 145A
Ascorbic acid in human tears and plasma: interrelationships and effect of vitamin C supplementation.
C. K. M. Choy, P. Cho & I. F. F. Benzie 147A
Conjugated linoleic acid affects Th-1 derived but not Th-2 derived cytokines in healthy human volunteers.
A. P. Nugent, E. J. Noone, M. J. Gibney & H. M. Roche 147A
Reduction of tissue factor expression on monocytes during pregnancy: is this homeostasis in haemostasis?
V. A. Holmes, W. S. Gilmore, J. M. W. Wallace, P. McFaul & H. D. Alexander 148A
An investigation of the effects of plant sterols on lipoproteins.
H. Colgan, E. J. Noone, M. J. Gibney & H. M. Roche 148A
The isomer-specific effects of conjugated linoleic acid on gene expression and lipid metabolism in male *Ob/Ob* mice.
E. J. Noone, S. McBennett, M. J. Gibney & H. M. Roche 149A
Effect of vegetables, tea and soya on endogenous *N*-nitrosation and faecal water genotoxicity during a high red meat diet in humans.
R. Hughes, J. R. A. Pollock & S. A. Bingham 149A
An assessment of the multivariate factors that may relate to dental caries among young Dublin schoolchildren.
A. C. Griffin, M. A. T. Flynn, E. Delap, J. McLoughlin, S. O'Hickey, M. J. Gibney & K. M. Younger 150A
Vegetable intakes in Irish adults aged 18–64 years: analysis of the North/South Ireland Food Consumption Survey.
M. M. O'Brien, M. Kiely & A. Flynn 150A
The contribution of ready-to-eat-breakfast cereals to nutrient intake in Irish adults.
M. A. Galvin, M. Kiely & A. Flynn 151A
Impact of fortification on micronutrient intakes in Irish adults.
E. M. Hannon, M. Kiely & A. Flynn 151A
Seasonality of vitamin D intake in 18–64 year-old Irish Adults: analysis of the North/South Ireland Food Consumption Survey.
T. R. Hill, M. M. O'Brien, M. Kiely, K. Cashman & A. Flynn 152A
The contributions of meat to nutrient intakes in Irish men and women of different ages.
M. Cosgrove, M. Kiely & A. Flynn 152A

Peripheral administration of cholecystokinin octapeptide and caerulein inhibits food intake in Swiss TO mice.
Y. H. A. Abdel-Wahab, C. M. N. Kelly, L. McLoughlin, P. R. Flatt & F. P. M. O'Harte 153A
Detection of glycated GLP-1 within the intestinal tissue of normal and diabetic animals.
M. H. Mooney, Y. H. A. Abdel-Wahab, P. R. Flatt & F. P. M. O'Harte 153A
Biological activity of cholecystokinin octapeptide and related analogues on insulin secretion from pancreatic β-cells.
F. P. M. O'Harte, C. M. N. Kelly & P. R. Flatt 154A
N-terminally modified GLP-1(7-36) amide is resistant to dipeptidyl peptidase-IV degradation whilst maintaining insulinotropic action.
B. D. Green, F. P. M. O'Harte, P. Harriott, B. Greer & P. R. Flatt 154A
Plasma antioxidant status of vegetarian Taoist group in Hong Kong.
Y. T. Szeto, T. C. Y. Kwok, K. L. Ip, S. Wachtel Galor & I. F. F. Benzie 155A
Investigation of membrane protection by antioxidant constituents of Chinese foods and herbs using probe-assisted flow cytometry.
W. Y. Chung, C. M. N. Yow & I. F. F. Benzie 155A
The development of food folate extracts of yeast, spinach and egg yolk.
D. J. McKillop, K. D. Pentieva, J. J. Strain, J. M. Scott, F. McCreedy, J. Alexander, K. Patterson & H. McNulty 156A
Can the EPIC food frequency questionnaire be used in adolescent populations?
G. Lietz, K. L. Barton, P. Longbottom & A. S. Anderson 156A
Specificity and sensitivity of action levels for waist circumference in a representative sample of Irish adults.
S. N. McCarthy, K. E. Harrington, M. J. Gibney, M. Kiely & A. Flynn 157A
The use of physical activity data in the identification of low energy reporters in the North/South Ireland Food Consumption Survey.
M. J. McGowan, K. E. Harrington & M. J. Gibney 157A
Food choices and supplement consumption in adults from a British birth cohort.
M. K. Tumilty, A. A. Paul, D. C. Greenberg, M. E. J. Wadsworth & C. Bolton-Smith 158A
Assessment of the influence of energy under-reporting on food additive exposure estimates.
M. B. Gilsenan, J. Lambe, J. Kearney & M. J. Gibney 158A
A longitudinal study of the relationship between serum 25-OH vitamin D and parathyroid hormone (PTH) concentrations in older women.
C. Bolton-Smith, G. D. Mishra, P. A. Mole, M. E. T. McMurdo & C. R. Paterson 159A
The effect of oestrogen and dietary phytoestrogens on calcium absorption in Caco-2 cells.
A. Cotter, C. Jewell & K. D. Cashman 159A
Effect of a calciuric (high sodium-high protein) diet on bone metabolism in apparently healthy postmenopausal women.
M. C. Harrington, T. Bennett, A. Flynn & K. D. Cashman 160A
The effect of conjugated linoleic acid (CLA) on bone formation in young growing rats.
O. Kelly, C. Jewell & K. D. Cashman 160A
The effect of oestrogen and selected phytoestrogens on osteoblast-like cell viability.
S. Cusack, C. Jewell & K. D. Cashman 161A
Effects of fish oil components on background and oxidant-induced sister chromatid exchange in Chinese hamster V79 cells.
L. C. O'Sullivan, J. A. Woods, S. A. Aherne & N. M. O'Brien 161A
Obesity and overweight in a cohort of Irish children aged 6-9 years: incidence and associated dietary factors.
C. McGovern, G. Quinlan & E. Ball 162A
Incidence of obesity and overweight in a cohort of Irish children and associated physical activity factors.
G. Quinlan, C. McGovern & E. Ball 162A

Evaluation of the avoidance of dairy products among women with breast cancer.
J. A. Morrissey, N. O'Gorman & E. P. McNamara 163A
Toxic effects of oxysterols in two cell culture models.
A. O'Sullivan, J. A. Woods, S. A. Aherne & N. M. O'Brien 163A
Retention of a carotenoid/tocopherol mixture in human intestinal Caco-2 cells following use of Tween 40 as a delivery vehicle.
S. M. O'Sullivan, J. A. Woods, S. A. Aherne & N. M. O'Brien 164A
Are phytosterols toxic to human intestinal Caco-2 cells?
D. M. Fahy, S. A. Aherne & N. M. O'Brien 164A
The sensory characteristics of, and consumer preference for, organic and non-organic chicken.
J. B. Lawlor, E. M. Sheehan, J. P. Kerry, C. M. Delahunty & P. A. Morrissey 165A
A comparison of the apoptotic potency of four oxysterols in the U937 cell line.
Y. C. O'Callaghan, J. A. Woods & N. M. O'Brien 165A
No effect of zinc supplementation followed by copper supplementation on immune function and putative indices of copper status in healthy adult men.
M. Bonham, J. M. O'Connor, P. Walsh, S. J. Coulter, H. D. Alexander, C. S. Downes, B. M. Hannigan & J. J. Strain 166A
Zinc supplementation has no effect on putative markers of copper status and lipoprotein metabolism.
L. McAnena, M. P. Bonham, J. M. O'Connor, S. J. Coulter, P. Walsh, C. S. Downes, B. M. Hannigan & J. J. Strain 166A
Selenium intakes in 18–64 year old Irish adults.
J. M. Murphy, E. M. Hannon, M. Kiely, A. Flynn & K. D. Cashman 167A
Selenium status of a group of Irish adults: evidence of insufficiency.
J. M. Murphy & K. D. Cashman 167A
Sources of dietary information in a select group of irritable bowel syndrome sufferers.
H. Killala, B. McKevith & C. Short 168A
Nurses' opinions regarding the tube-feeding of patients with advanced dementia.
A. Ryan & E. P. McNamara 168A
Model of best practice for reduced fat food product development.
B. Knox 169A
Health and diet from a teenager's point of view.
J. J. Sittlington & B. Knox 169A
A comparison of pulmonary function, smoking, alcohol intake and physical activity in first and fourth year female university students.
T. Foley, C. McArthur & M. Moloney 170A
Effect of soya-milk formulas on faecal microbiology and metabolism.
L. Hoey, I. R. Rowland, P. M. Heavey & J. S. Brown 170A
Plasma phospholipid composition and *ex vivo* mononuclear cell TNF-α release in healthy subjects: response to increased *n*-3 polyunsaturated fatty acid and antioxidant intakes.
T. Trebble, G. C. Burdge, E. A. Miles, P. Wright, P. C. Calder, M. S. Stroud & S. A. Wootton 172A
Postprandial concentrations of retinyl palmitate following ingestion of oil-soluble and water-miscible preparations of retinyl palmitate in healthy adults.
A. L. Cawood, J. L. Murphy & S. A. Wootton 172A
Gastrointestinal handling of vitamin A in severely malnourished children at admission and following treatment.
J. L. Murphy, V. A. Badaloo, A. Cawood, B. Chambers, T. E. Forrester, S. A. Wootton & A. A. Jackson 173A
Evaluation of the efficacy of ascorbic acid in minimizing lipid peroxidation in lipid emulsions administered to premature babies.
C. A. Conlon, A. T. Gibson & H. J. Powers 173A

Blood as a biomarker: the antioxidant vitamins.
J. E. Pollard, D. C. Greenwood & J. E. Cade 174A
How prevalent is vitamin B_{12} deficiency among British vegetarians and vegans?
Z. Lloyd-Wright, N. Allen, T. J. A. Key & T. A. B. Sanders 174A
Combined selenium plus vitamin E deficiency affects differential gene expression: a cDNA array study in rat liver.
G. Rimbach, A. Fischer & J. Pallauf 175A
Optimization of a stable isotope method for studying calcium metabolism: pilot study.
J. R. Dainty, G. Majsak-Newman, B. Teucher & S. J. Fairweather-Tait 175A
Tissue expression, function and regulation of a putative novel zinc transporter, ZnT5.
R. A. Cragg, S. R. Phillips & D. Ford 176A
Increased exposure to non-haem iron decreases iron absorption by intestinal epithelial cells.
P. A. Sharp, S. R. Tandy, J. P. Tennant, S. Yamaji, M. R. Williams & S. K. S. Srai 176A
Dietary changes in free-living adults after changing to a vegetarian diet.
R. L. Reid & A. F. Hackett 177A
Factors affecting and limiting food choice in a 'food desert'.
D. L. Warm, B. M. Margetts, A. R. Whelan & N. Wrigley 177A
Geographical and demographic factors affecting food access in Barnsley.
T. Pearson & M. E. Barker 178A
How do women achieve a low fat diet?
C. Golding, J. Cade, C. Lawton & D. Greenwood 178A
Effectiveness of dietary intervention strategies aimed at increasing consumption of whole grain or low- and reduced-fat food products in free-living volunteers.
A. Smith, S. Kuznesof, D. P. Richardson & C. J. Seal 179A
Self-esteem and body weight status in women.
J. J. Lara & M. E. J. Lean 179A
Differences in perceptions of functional foods: the public versus nutritionists.
A. McConnon, P. L. Fletcher, J. E. Cade, D. C. Greenwood & A. D. Pearman 180A
Public perception of possible health effects associated with functional foods.
A. McConnon, J. E. Cade, D. C. Greenwood & A. D. Pearman 180A
Individuals' perception of diet with regard to health compared with recorded intake.
U. R. Tohill, P. J. Curtis, A. J. Adamson & J. C. Mathers 181A
The effect of an after-school 'Food Club' on food preparation skills and nutritional knowledge.
P. J. Moynihan, A. S. Anderson, R. Stacy, R. Hyland, S. A. Revill, J. Hooper, A. Mather & A. J. Adamson 181A
The rate of avian relearning of the association between sensory and nutritional properties of food.
S. L. Hannah, J. M. Forbes & J. R. G. Turner 182A
Is measurement of iron intake in nutritional epidemiology impaired by use of standard values?
B. Bratley, D. Greenwood, V. Burley & J. Cade 182A
Associations between fruit and vegetable, starch and fat consumption?
P. J. Curtis, A. J. Adamson & J. C. Mathers 183A
A profile of the food beliefs of obese people in primary care.
H. Moore, D. Greenwood, P. Tovey & A. J. Adamson 183A
The dietary intake of free-living and institutionalized elderly people.
C. Eastwood, G. J. Davies & P. W. Dettmar 184A
Relationship between consumer beliefs towards starchy foods and starch consumption.
A. Spendiff, A. J. Adamson, P. J. Curtis, A. Jones & J. C. Mathers 184A
Fruit and vegetable intake and perceived chewing ability of complete denture wearers.
J. Bradbury, J. M. Thomason, N. J. A. Jepson, A. W. G. Walls, P. F. Allen & P. J. Moynihan 185A
Diet and folic acid in the first trimester of pregnancy.
S. C. Langley-Evans & A. J. Langley-Evans 185A

Changes in premature infant lutein and zeaxanthin concentrations during the early weeks of life.
V. C. Jewell, C. B. D. Mayes, R. Tubman, C. A. Northrop-Clewes & D. I. Thurnham 186A
Low birth weight babies: maternal diets of preterm and small for gestational age babies.
G. A. Rees, W. Doyle & M. A. Crawford 186A
Postnatal ontogeny of cytochrome c, the voltage-dependent anion channel (VDAC) and uncoupling protein 1 (UCP1) in ovine brown adipose tissue (BAT).
A. Mostyn, T. Stephenson & M. E. Symonds 187A
Effect of feeding a low-protein diet on liver and plasma phosphatidylcholine *n*-3 fatty acid concentrations in the adult rat.
G. C. Burdge, P. Wright, R. Dunn, S. A. Wootton & A. A. Jackson 187A
The role of luminal nutrition on the incidence of apoptosis in the small intestinal mucosa of the post-lactating rat.
B. E. Murray, S. Thompson & R. D. E. Rumsey 188A
Effects of insulin and dexamethasone on stearoyl coenzyme A desaturase mRNA concentrations in ovine adipose tissue.
Z. C. T. R. Daniel, P. J. Buttery & A. M. Salter 188A
Predicting mothers' use of weaning foods: application of the theory of planned behaviour.
M. M. Raats & N. Scanlon 189A
The effect of an after-school 'Food Club' on intake of foods and nutrients by children from deprived social backgrounds.
S. A. Revill, A. J. Adamson, R. Stacy, J. Hooper & P. J. Moynihan 189A
Nutrient intake in female gymnasts and healthy age-matched controls: preliminary analysis of a 24-month longitudinal study on bone health.
J. A. Nurmi, J. A. Bishop, D. Kolaghassi, H. Simpson & S. A. New 190A
Well-being, gastrointestinal function and other reactions to food.
D. Benton 190A
Irritable bowel syndrome and dietary habits in a selected group of sufferers.
H. Killala & C. Shortt 191A
Gastric emptying of carbohydrate solutions.
C. H. Simpson, S. M. Shirreffs & J. B. Leiper 191A
Development and validation of a chart for measuring stool output in patients receiving enteral tube feeds.
K. Whelan, P. A. Judd & M. A. Taylor 192A
In vitro fermentation of pyrodextrinized lentil and cocoyam starches.
A. Laurentin & C. A. Edwards 192A
The effects of butyric acid upon rat lymphocytes: proliferation, cytokine production and expression of membrane proteins.
M. G. Vecchia, C. R. Cavaglieri Felipe, A. Nishiyama, L. C. Fernandes, R. Curi & P. C. Calder 193A
Folic acid supplementation and intestinal tumorigenesis in the Min (*Apc* +/–) mouse.
R. I. Valentine, G. J. Cuskelly & J. C. Mathers 193A
Intragastric macronutrient infusion effects upon food intake and rated appetite.
T. M. Robinson, R. Alam, M. R. Yeomans & S. J. French 194A
Effect of administration of prolactin throughout rat pregnancy on brown adipose tissue development.
H. Budge, A. Mostyn, V. Wilson, A. M. Walker, M. E. Symonds & T. Stephenson 194A
Effect of date of mating and housing on lamb growth, thermoregulation and adipose tissue deposition.
S. Pearce, A. Mostyn, E. Genever, R. Webb, M. E. Symonds & T. Stephenson 195A
Factors influencing body composition measurement using air displacement plethysmography: is body surface area an issue?
A. L. Collins & H. D. McCarthy 195A

Bone mineral density and body mass index of patients with ileostomies.
D. H. L. Ng, A. N. J. May, S. A. Wootton & M. A. Stroud 196A
Knowledge of osteoporosis and prevalence of dietary and lifestyle risk factors for poor bone health in 16–18 year-old males and females.
C. Jaggers, S. Wisden, J. Catterick, J. A. Bishop, D. J. Pattison, A. D. Woolf & S. A. New 196A
The influence of different stimuli on energy expenditure and food intake.
V. Lim, C. J. K. Henry & R. Ramsbottom 197A
Influence of maternal nutrition during early to mid-gestation on blood pressure control of juvenile offspring in sheep.
G. Gopalakrishnan, S. Pearce, J. Dandrea, A. Mostyn, R. M. Walker, M. M. Ramsey, T. Stephenson & M. E. Symonds 197A
The effect of feed restriction and realimentation on liver mRNA and plasma levels of insulin-like growth factor binding protein-2 (IGFBP-2) and IGFBP-3 in calves.
G. K. Lee & P. J. Buttery 198A
The effect of fibre and fibre sources on plasma carotenoid levels: results from the UK Women's Cohort Study.
A. J. Long, J. E. Cade, D. C. Greenwood & V. Burley 198A
A human study investigating the effects of increased fruit and vegetable consumption in smokers.
W. G. Roberts, M. H. Gordon & A. F. Walker 199A
The effect of acute ingestion of fruit and vegetables on whole blood platelet aggregation: a pilot study.
G. P. Hubbard, L. C. Bourne, J. A. Lovegrove, J. M. Gibbins & C. M. Williams 199A
Negative associations between fasting triacylglycerol (TAG) and indicators of adiposity in Sikh men living in the UK.
S. Lesauvage, S. Lovegrove, J. A. Lovegrove & C. M. Williams 200A
Effect of fluid ingestion rate on post-exercise rehydration in human subjects.
D. T. Archer & S. M. Shirreff 200A
Increasing plasma homocysteine concentrations within the normal range correlate with worsening arterial endothelial function in the lower but not upper limb in a healthy population.
N. C. Pegge, R. C. Field, A. M. Twomey, I. F. W. McDowell, M. J. Lewis & M. W. Ramsey 201A
Influence of gymnastic training and nutrition on bone 'quality' in pre-pubertal and pubertal girls: preliminary data from a 24-month longitudinal study.
J. A. Nurmi, J. A. Bishop & S. A. New 201A
Nutritional interventions for menopausal symptoms: the reliability of measurement and the response prior to treatment.
S. M. Hicks & A. F. Walker 202A
Higher intakes of fruit and vegetables are associated with higher bone mass in perimenopausal Scottish women.
H. M. MacDonald, F. H. Downie, F. Moore, S. A. New, D. A. Grubb & D. M. Reid 202A
Phytoestrogens and the menopause: results from the UK Women's Cohort Study.
S. Boylan, J. E. Cade & D. C. Greenwood 203A
Supplementation with a single cell oil, rich in docosahexaenoic acid elevates LDL cholesterol concentration in middle-aged healthy volunteers.
H. E. Theobald & T. A. B. Sanders 203A
Low-intensity exercise permits coupling between serum leptin and hunger-satiety in middle-aged obese women.
F. Tsofliou, Y. P. Pitsiladis, D. Malkova, M. A. Wallace & M. E. J. Lean 204A
A city-wide survey of the diet, nutritional status and fitness of 9 and 10 year-old children in Liverpool according to receipt of free school meals.
A. F. Hackett, M. Gibbon, G. Stratton & E. Hamill 204A

Estimation of portion sizes in children and adults using descriptions of the portion sizes and a photographic food atlas.
C. Frobisher & S. M. Maxwell 205A
Portion size estimation by primary school children.
E. Foster, A. S. Anderson & A. J. Adamson 205A
Investigating the use of variety indices as indicators of the nutritional adequacy of children's diets.
K. H. Hart, P. Y. Ng, J. Catterick, S. A. New, J. Bishop & H. Anthony 206A
Food and nutrient content of meals chosen by secondary pupils under two different types of school meal provision.
W. L. Wrieden, A. Bell & P. J. Longbottom 206A
Physical activity patterns in children aged 5–7 years.
S. Perwaiz, J. Warren, S. Bradshaw & C. J. K. Henry 207A
Fruit and vegetable consumption by young persons aged 4 to 18 years: total daily number of portions.
J. M. Hughes & C. M. Gay 207A
Dietary intake and sources of phylloquinone (vitamin K1) of a sample of adolescents in Cambridge, UK.
C. J. Prynne, A. A. Paul, D. C. Greenberg, C. Bolton-Smith, S. J. Stear, S. C. Jones & A. Prentice 208A
A comparison of nutritional and diet status between Brazilian Indians and non-Indian children from a similar socio-economic background.
M. C. De Souza, A. O. K. F. Souza, K. C. Cuelhar & M. Oshiwa 208A
Feeding practices in children aged 10–18 months of low-income mothers from an urban area of Botswana.
J. Earland & B. M. Gaseitsiwe 209A
Sources of dietary sugars *Laboratories* in adolescents in 1980, 1990 and 2000.
A. J. Rugg-Gunn, E. S. Fletcher & A. J. Adamson 209A
Twenty years of change in the dietary intake and BMI of Northumbrian adolescents.
E. S. Fletcher, A. J. Adamson & A. J. Rugg-Gunn 210A
Body mass index from young adolescence to adulthood: a 20-year follow-up.
A. Lake, A. Craigie, M. Gibbons, C. Wood, A. Adamson & A. Rugg-Gunn 210A
Increasing waist circumferences in British children aged 11–16 years: further evidence for a greater prevalence of childhood overweight and obesity.
S. M. Ellis & H. D. McCarthy 211A
The prevalence of obesity among adolescent females in the United Arab Emirates.
H. M. Al-Hourani, C. J. K. Henry, A. O. Musgaiger & H. J. Lightowler 211A
An investigation into the relative costs of breast- and bottle-feeding in Liverpool infants up to the age of four months.
K. Berridge, A. F. Hackett, J. Abayomi & S. M. Maxwell 212A
Risk factors for poor iron status in British adolescent girls.
C. W. Thane & C. J. Bates 212A
The relationship between body mass index and indices of psychosocial functioning in children.
L. C. A. Craig, J. Love, G. McNeill & B. Ratcliffe 213A
Effect of vagal stimulation on hepatic lipid metabolism.
M. D. Robertson, A. O. Mason & K. N. Frayn 213A
The anti-obesity effects of conjugated linoleic acid in the rat are accounted for by the *trans*-10, *cis*-12 isomer, but are gender-dependent.
M. J. Azain & F. Chi 214A
Nutrient regulation of gene expression: conjugated linoleic acid, lipid metabolism and energy homeostasis.
H. M. Roche, E. Noone, A. J. Vidal-Puig, S. O'Rahilly & M. J. Gibney 214A

Meal fatty acid composition influences the distribution of chylomicron particles in the S_f>400 and S_f60–400 lipoprotein fractions.
K. G. Jackson, M. D. Robertson, B. A. Fielding, K. N. Frayn & C. M. Williams 215A
Adiposity, plasma lipids and an atherogenic lipoprotein phenotype (ALP).
A. M. Minihane, J. A. Lovegrove, Y. E. Finnegan, S. V. Lesauvage & C. M. Williams 215A
Dietary supplementation with pure α-linolenic acid may worsen endothelial function.
N. C. Pegge, R. C. Field, A. M. Twomey, I. F. W. McDowell, M. J. Lewis & M. W. Ramsey 216A
Influence of the structure of stearic acid-rich triacylglycerols on postprandial lipaemia and factor VII coagulant activation.
T. A. B. Sanders, S. Berry & G. J. Miller 216A
Measuring insulin sensitivity using ^{13}C-glucose and gas chromatography/combustion/isotope ratio mass spectrometry.
A. T. Clapperton & L. J. C. Bluck 217A
The use of factor VII as a biomarker for fat intake in postmenopausal women.
J. M. Lawrence, B. Parry, R. M. Rainsbury & B. M. Margetts 217A
Regional variations in consumer knowledge and purchasing of whole grain foods.
S. Smith, A. Smith, D. P. Richardson & C. J. Seal 218A
Whole grain food consumption by British adults from two national dietary surveys.
R. Lang, C. W. Thane, C. Bolton-Smith & S. A. Jebb 218A
Reliability of web-based dietary recommendations for the prevention of coronary heart disease.
J. K. Peden, R. J. Meade & S. McPherson 219A
Sugar intake at age 4 and 43 years in the 1946 national birth cohort.
D. C. Greenberg, M. E. J. Wadsworth, A. A. Paul, C. J. Prynne & C. Bolton-Smith 219A
Critical appraisal of methods used to estimate non-milk extrinsic sugars.
S. A. M. Kelly, A. J. Rugg-Gunn, C. Summerbell & P. J. Moynihan 220A
Relationship between rate of starch digestion and endosperm hardness of wheat cultivar samples.
V. R. Pirgozliev, S. P. Rose, P. S. Kettlewell & L. A. Tucker 220A
Effect of feeding wheat straw upgraded by edible mushroom *Pleurotus florida* to sheep, on ruminal bacteria, protozoa and *in vivo* digestibility.
O. Montanez, M. E. Ortega-Cerrilla, M. Cobos, C. Becerril, J. E. Garcia & A. Larque 221A
Effect of two strains of *Saccharomyces cerevisiae* on productive performance of heifers.
U. Coronel, M. E. Ortega-Cerrilla, G. Mendoza, M. T. Sanchez, J. Ayala & C. Becerril 221A
Food shopping experiences in older people living in Guildford: preliminary findings.
L. C. Wilson, A. Alexander & M. Lumbers 222A
What do itemized supermarket receipts reveal about the fat and energy content of the food shopping of households comprising overweight and obese members?
J. K. Ransley, J. K. Donnelly, H. Botham, T. N. Khara, H. Arnot, J. E. Cade & D. C. Greenwood 222A
Prevalence of malnutrition in people aged 65 years and over in Great Britain.
R. L. Thompson, B. M. Margetts & A. A. Jackson 223A
Weight loss on a sugar-containing energy restricted diet: a three-centre study.
S. Drummond, C. Dixon, J. Griffin & A. De Looy 223A
Comparison of a diet quiz with a weighed food intake to evaluate dietary practices of post-myocardial infarction patients.
C. R. Hankey, T. Lappa, W. S. Leslie & M. E. J. Lean 224A
Primiparous women's reported preconception and first trimester folic acid use.
Z. M. Brooke & W. Doyle 224A
Nutritional influences on indices of bone health: preliminary results from the 'extent of osteoporosis in young British women' study.
L. Porteous, J. Catterick, J. A. Bishop, L. E. Crossley, D. J. Pattison, A. D. Woolf, P. Taylor, C. Cooper & S. A. New 225A

Accuracy of lunch recall in children aged 5–7 years.
J. Warren, C. J. K. Henry, S. Bradshaw & S. Perwaiz 225A
Biscuits, cakes and confectionery: associations with micronutrient inadequacy among older people.
S. Gibson & J. Lambert 226A
7-day food intake in an Oxfordshire residential home for the elderly.
J. H. Hollis & C. J. K. Henry 226A
The effect on iron of changing to a self-selected vegetarian diet.
F. Robinson, D. Billington, G. Stratton & A. Hackett 227A
Investigation into the effects of casein and whey protein on circulating metabolite and hormone status and appetite.
W. L. Hall, D. J. Millward & L. M. Morgan 227A
Dietary intake during night shift and day shift in offshore shift workers.
M. Gibbs, J. Arendt, S. Hampton, G. Bennett, N. Paul & L. Morgan 228A
A comparison of fish eaters with other meat eaters and vegetarians taking part in the UK Women's Cohort Study.
J. E. Cade, V. J. Burley & D. C. Greenwood 228A
Dietary iron intakes in British adolescent children: a comparison between 1983 and 1997.
C. W. Thane & C. J. Bates 229A
Plasma *n*-3 fatty acid concentrations in omnivore, vegetarian and vegan men in the Oxford cohort of the EPIC study.
Z. Lloyd-Wright, N. Allen, T. J. A. Key & T. A. B. Sanders 229A
A preliminary study investigating the influence of food on the perception of visceral pain in healthy human volunteers.
S. A. Zmarzty, J. Francis & N. W. Read 230A
The effect of shift work on food intake and temporal salivary cortisol levels.
S. L. Reeves, T. Lucas, N. Murray & D. Dorlin 230A
Dietary intake and quality of life in patients with cancer of the head and neck twelve months after completion of radiotherapy treatment.
A. E. Pickings, S. Fellows, C. G. Kelly & C. J. Seal 231A
Dietary fat consumption of women with reference to dieting status and the implications for coronary heart disease (CHD) development.
S. J. Roberts & S. M. Maxwell 231A
Folate protects human low-density lipoprotein against oxidative modification.
E. Nakano, J. A. Higgins & H. J. Powers 232A
Limited conversion of α-linolenic acid to docosahexaenoic acid in men.
G. C. Burdge, Y. E. Finnegan, A. M. Minihane, P. Wright, C. M. Williams & S. A. Wootton 232A
α-Linolenic acid metabolism in men: effect of altering dietary *n*-3 polyunsaturated fatty acid intake.
G. C. Burdge, Y. E. Finnegan, A. M. Minihane, P. Wright, C. M. Williams & S. A. Wootton 233A
Hypotriacylglycerolaemic effects of fish oils in British Sikhs and Caucasians.
J. A. Lovegrove, S. V. M. Lesauvage, S. S. Lovegrove, N. Saini, B. A. Griffin, A. M. Minihane & C. M. Williams 233A
Effect of the menstrual cycle on the basal metabolic rate in naturally cycling women.
H. J. Lightowler, C. J. K. Henry & D. Wilson 234A
Polyunsaturated fatty acid content of plasma can be modulated by dietary supplementation with flaxseed-enriched bread: comparison with encapsulated supplementation.
N. C. Pegge, R. C. Field, A. M. Twomey, I. F. W. McDowell, M. J. Lewis & M. W. Ramsey 234A
Differential sensitivity of mismatch repair deficient colorectal cancer cell lines to butyrate.
E. A. Williams, W. Bal & J. C. Mathers 235A
Lipid digestion and absorption during rehabilitation from severe childhood malnutrition.
J. L. Murphy, V. A. Badaloo, B. Chambers, A. Hounslow, T. E. Forrester, S. A. Wootton & A. A. Jackson 235A

Correlation between placental nutrient transport and birth weight in pregnancies complicated by maternal diabetes.
M. R. Foster, T. J. Birdsey, C. Bruce, S. J. Barton & R. B. Fraser 236A
Higher plasma di-homo-gamma-linolenic acid and arachidonic acid content are associated with endothelial dysfunction in man.
N. C. Pegge, R. C. Field, A. M. Twomey, I. F. W. McDowell, M. J. Lewis & M. W. Ramsey 236A
Effect of flavour enhancers on food intake in hospitalized elderly patients in Hong Kong.
C. J. K. Henry, T. A. Seyoum, H. J. Lightowler & J. Woo 237A
